C 701

Description

C 701 is the new full face mask of the **Sèkur** range which, through the innovative **Air-On inspiration system**, manages to combine a **high protection factor** with a **minimum level of breathing resistance**, assuring comfort and safety to the end user.

C 701 can be used with particle, gas and combined filters equipped with EN 148/1 threaded connection, offering high protection against gases, vapours, solid and liquid particulates.

C 701 is available in **6 colours** (red, nato green, aquamarine, orange, black and white), with **harness** in **EPDM** or in **3D fabric**, and with **treated visor**.

Performances

ERGONOMIC DESIGN & COMFORT

The harness, fixed on 5 points, is available in EPDM or 3D fabric (interchangeable). 3D fabric is designed to achieve maximum comfort and breathability. The three-dimensional structure assures maximum air circulation within the layers to always have fresh and dry fabrics.

AIR-ON INSPIRATION SYSTEM

Innovative inspiration system with rectangular inhalation valve and absence of non-return valves, which ensures excellent anti-fog, assuring a minimum level of breathing resistance.

PANORAMIC VISOR

The visor, optical class 1 (EN 166), ensures a wide field of vision, without optical distortions.

CLASS 3

The mask is certified as class 3 according to EN 136 (maximum mechanical, heat and flame resistance).

EASY

Lightweight mask, easy to use and to maintain.
